

## Glockner Oil Company Testimonial

January 30, 2015

### Service:

- When Glockner Oil Company first won our bid a few years ago one of my concerns was about what level of service we would receive from them. We had been dealing with the same vendor for almost twenty years and were very pleased with their service. My concerns were unfounded as Glockner has far exceeded our previous vendor in quality, efficient service. If we have any kind of unexpected needs they get it done. There is no “we can’t get that to you today or we can’t take care of that” They get it done for us. That is very important for a fleet of school busses

### Product Satisfaction:

- Glockner offers a wide range of outstanding products that meet all of our requirements. Anytime we have a new lubrication need they are usually able to offer a couple of options for us to choose from. They supply us with quality products at a competitive price.

### Personal Attention

- We have been very fortunate since we starting dealing with Glockner to have outstanding sales representatives. Connie Geary our current rep is very attentive to our needs. She gets things done for us. She treats us as if we were her only customer as I’m sure she does all of her customers. I have always felt the key to good service is people, Glockner has good people. From Connie to the office staff, to the management, all of the Glockner people make you feel like you are more than just a customer.
